

# 2005 WEATHER CALENDAR

**Climatological Data:** Daily normals of maximum and minimum temperatures, and monthly normals of temperature, heating/cooling degree days, and precipitation for the Tri-City Airport, Tennessee for the period 1971 to 2000 are used. Data was provided by the National Climatic Data Center in Asheville, North Carolina. The data from the Tri-City area can be used as representative for most of the northern Tennessee Valley. Departures of actual daily and monthly data from the normals are expected. The variations in normals at different locations in east Tennessee are attributed to the locality's latitude, elevation and topography. Record high and low temperature data is for the period October 1937 to November 2004.

**Current Weather Data:** National Weather Service data can be acquired from NOAA Weather Radio, and commercial television and radio. In addition, you can call us at 423-586-3771 to obtain the current weather and forecast for the Tri-City area. You can also access our homepage on the Internet at: [www.srh.noaa.gov/MRX](http://www.srh.noaa.gov/MRX).

## Legend:

<b>2</b>	7:36 am 6:03 pm 47/74 (1989) 27/3 (1917)  <i>Heavy snow blanketed east TN in 1996. Up to 24" fell in Anderson Co. and 18" in Grainger Co.</i>
